Surfaces

Ecological Deep-Cleaning of all kind of Surfaces

GB 07/2009

From one and the same source! Hence you will not only be able to wash your laundry and clean all kind of delicate textiles thoroughly and environmentally friendly with SEITZ Products but also all kind of surfaces in industrial operations.

Constant further development to the benefit of our customers!

SEITZ, worldwide known by their multiple products for professional Laundry and Textile Care, are now launching a new product line on the market: Effective ecological cleansing products for all surfaces.

The new product lines **Kitec**, **Ceratec, Surtec** and **Destec** reflect the experience of more than 120 years of the company history. In the company-owned laboratories, products are developed for national and international use and tested by our application engineering under pratical operation conditions for their aptitude, efficiency, effectiveness and environmental-friendliness.

The products of the **Kitec** line will be your solution to all dirt problems in the kitchen – starting from a washing-up liquid, via a grill-cleaning agent up to a silver-cleaning product, you will find economic, effective, fragrant and biodegradable cleaning products.

In sanitary areas, too, everything will become clean and fresh with the **Ceratec** line from tiles to toilet. Floor-cleaning can be covered completely with the products of the **Surtec** line and with the **Destec** line you will be optimally equipped for industrial surface disinfection.

Everything "under one umbrella“:
Starting with Research & Development up to production, ecological warehousing, worldwide dispatch, marketing, distribution and administration.

Beyond their commitment to continuously develop and improve our own product formulations, our chemists and engineers keep up with the latest stage of technology and environmental requirements by attending national and international conferences.

Round-the-clock, our internal technicians are available for answering technical and chemical questions by our customers and assisting them in complicated problems, and a team of external technicians render direct service to our customers in Germany.

On the international side, SEITZ Technical Consultants are at the disposal of our distribution partners and big customers to solve problems at site and to implement new processes and products. Our authorized distribution partners are found in 70 countries all over the world.

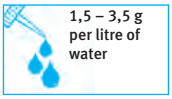
Kitchen

Dishwashing Detergents

Kitec Dish Complete

Liquid dishwashing detergent containing chlorite

- strongly alkaline, bleaching dishwashing detergent, exempt from phosphate, for tenacious soil, preventing with lasting effect the build-up of starch
- for use on porcelain, metal and plastic material
- not suited for aluminum nor aluminum alloys
- the active ingredients render optimum results in any professional dish-washer
- environmentally friendly since the product is exempt from phosphates, APEO, EDTA und NTA



Kitec Dish Liquid

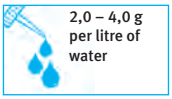
Liquid intensive dishwashing detergent

- strongly alkaline dishwashing detergent, exempt from phosphate, for tenacious soil
- especially suited for dishes contaminated with albuminous soil
- for use on porcelain, metal and plastic material
- not suited for aluminum nor aluminum alloys
- combined with **Kitec Bleach Oxy** or **Kitec Bleach CL**, even the most tenacious tea and coffee stains will be removed easily .

Kitec Dish Glass

Liquid glass and dishwashing detergent

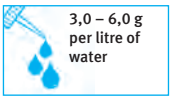
- especially mild glass and dishwashing detergent
- especially high protection of the glass decor due to specific ingredients
- for use on glass, porcelain and plastic material
- the special combination of active substances guarantees powerful removal of grease residues and dried food remains.
- suited for all water hardness
- actively prevents calcification



Kitec Dish HD

Liquid intensive basic dishwashing detergent

- highly alkaline, intensive basic dishwashing detergent, exempt from phosphate, for tenacious albuminous and starch-based soil
- for use on porcelain, metal and plastic material
- not suited for aluminum nor aluminum alloys

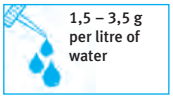


Kitchen

Dishwashing Detergents

Kitec Dish Aluminium

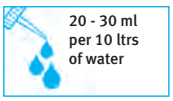
Liquid dishwashing detergent
- lightly alkaline dishwashing detergent, exempt from phosphate, for tenacious soil
- for use on porcelain, metal and plastic material, aluminum and aluminum alloys
- the active ingredients render optimum results in every professional dish-washer



Hand Dishwashing Detergent

Kitec Washup

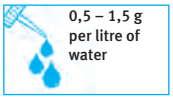
Liquid hand dishwashing detergent
- liquid, yielding, skin-friendly hand dishwashing detergent for manual dish cleaning
- due to the optimal combination of surfactants, a quick dissolution of grease and dried food residues and simple streakless rinse will be secured
- very mild action which does not attack even sensitive surfaces like non-ferrous metals and lacquered surfaces



Bleaching Agents

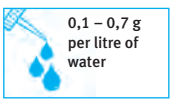
Kitec Bleach Oxy

Liquid oxygen-based bleaching agent
- hydrogen peroxide-based bleaching agent exempt from chlorine, which, combined with a liquid alkaline dishwashing detergent like **Kitec Dish Liquid**, will easily remove even most tenacious tea and coffee stains
- for use in all professional dishwashing machines
- suited for all materials and water hardness



Kitec Bleach CL

Liquid sodium hypochlorite-based bleaching agent
- bleaching agent containing active chlorine which, combined with a liquid alkaline dishwashing detergent like **Kitec Dish Liquid** will easily remove even most tenacious tea and coffee stains
- for use in all professional dishwashing machines
- suited for all water hardness



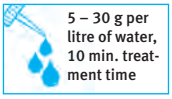
Kitchen

Immersion

Kitec Pre Dish

Dip liquid for cutlery and dishes

- alkaline dip liquid exempt from phosphate and chlorine for cutlery and dishes
- due to high-grade substances, the dip liquid can be used at any hardness of water and also at higher temperatures
- special corrosion inhibitors protect cutlery and stainless steel parts
- the product dissolves quickly and thoroughly dried food residues and is suited for all materials

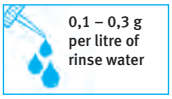


Rinse Liquids

Kitec Rinse S

Liquid, acid, concentrated rinse liquid

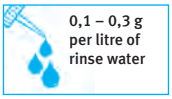
- acid rinse liquid securing perfect spot-free glossy drying due to excellent drip-off properties
- for use on glass, porcelain and plastic material
- the product can be used on continuous and mono-tank dish washers and is suited for all water hardness



Kitec Rinse N

Concentrated rinse liquid

- acid rinse liquid securing streakless glossy drying, especially on glass, due to its selected ingredients
- for universal use in all professional dish-washers
- specially selected low foaming surfactants impede excessive foaming in the machine
- suited for all materials and water hardness



Kitchen

Machine Decalcifier

Kitec Scalex

Liquid, acid decalcifier

- liquid acid decalcifier for professional scope of application
- inorganic incrustation like lime, scale and rust from heaters, boiler and dishwashers are dissolved quickly and thoroughly
- due to the application of higher temperatures (70 °C) and mechanical action, the effectiveness of **Kitec Scalex** will be enhanced
- special corrosion inhibitors protect steel, non-ferrous metal and stainless steel surfaces
- not suited for aluminum and lacquered surfaces

Grill Cleansers

Kitec Oven Gel

Gel-like, alkaline cleanser for all grease-soiled areas

- for cleaning ovens, automatic grills, convectomates and stainless steel filters
- **Kitec Oven Gel** adheres particularly well to smooth surfaces
- especially tenacious contamination, e.g. grease soil, can be removed even more effectively by mechanical influence
- suited for all materials
- on aluminum, try by practical application

Kitec Oven Spray

Liquid, alkaline cleaning foam for all grease-soiled areas

- liquid, alkaline cleaning foam for cleaning ovens, automatic grills and convectomates
- due to an optimum combination of alkalinity, surfactants and solubilizers, high effectiveness is reached for removal of burned-in greases and oils
- suited for use in the food industry
- suited for all kind of materials; in the case of aluminum, try by practical application

Kitec Oven Spray HD

Liquid, highly alkaline cleaning foam for all grease-soiled areas

- liquid, highly alkaline cleaning foam for cleaning ovens, automatic grills and convectomates
- due to an optimum combination of alkalinity, surfactants and solubilizers, high effectiveness is reached for removal of burned-in greases and oils
- suited for use in the food industry
- not suited for aluminum

Kitchen

Metal-Cleaning Liquids

Kitec Steel Protect

Ready-for-use stainless steel caring liquid

- ready-for-use stainless steel caring liquid for all stainless steel surfaces which have no contact with foodstuffs
- selected caring oils and auxiliary substances provide stainless steel surfaces with a special gloss
- the product forms a protective film against finger prints and water stains
- to be used only on surfaces which have no contact with foodstuffs.

Kitec Steel Polish

Ready-for-use stainless steel polish

- cleaning and polishing product ready-for-use, suited for all stainless steel surfaces
- special abrasives take care that even burned-in contaminations can easily be removed
- selected active ingredients give stainless steel surfaces a special gloss
- can be used in areas with food contact

Silver-Cleaning Products

Kitec Silver Clean

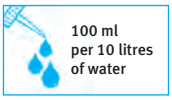
Dip liquid for cleaning silver objects

- dip liquid for cutlery, dishes and silver-plated objects
- specially developed for removal of tarnish on silver
- due to high-grade active substances, the dip liquid can be used at any water hardness
- rapid cleaning – combined with **Kitec Silver Protect**, silver re-tarnishing will be prevented

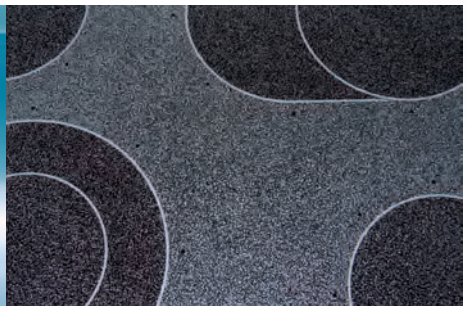
Kitec Silver Protect

Liquid silver protection

- protective dip liquid for cutlery, dishes and silver-plated objects.
- the product effectively prevents silver or silver-plated objects from tarnishing
- due to high-grade raw materials, the silver protection liquid can be used at any water hardness
- objects already tarnished can be pre-cleaned with **Kitec Silver Clean** prior to application of the protective layer



Kitchen

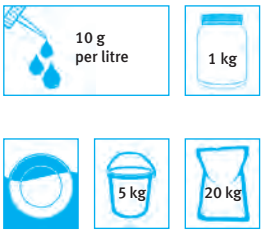


Special Cleaning Products

Kitec CT Remover

Special oxygenated cleaning powder

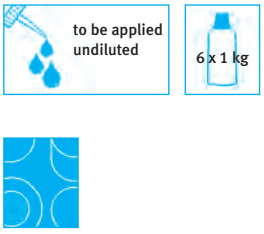
- special alkaline, enzymatic, bleaching powder for tenacious coffee and tea stains on the basis of oxygen bleach
- used as dip liquid on porcelain, metal and glass
- not suited for aluminum nor aluminum alloys
- the active substances enable optimum cleaning results in case of heavy tea and coffee residues



Kitec Cera Polish

Ready-for-use polish for caring glass ceramics with burning-in protection

- ready-for-use cleaning and caring product for all glass ceramic tops and surfaces
- special abrasives make sure that even burned-in contaminations can easily be removed
- selected substances give glass ceramic surfaces a special lucid gloss
- the formation of a protective film on the glass ceramics will prevent soil burn-in

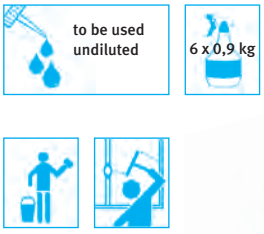


Glass-Cleaning Liquid

Surtec Glass

Glass-cleaning liquid

- highly concentrated, yielding cleaning liquid for cleaning glass as well as matt and shiny plastic surfaces
- due to its optimum formulation, the product secures thorough and material-caring cleaning
- quick, streakless drying



Surfaces

Universal Cleaning Liquids

Surtec Multiclean

Universal cleaning liquid for surfaces that can be wet-wiped

- liquid, concentrated cleaning product for daily maintenance cleaning of all surfaces that can be wet-wiped
- highly active substances secure quick and thorough cleaning of surfaces
- the product has a good wetting and emulsifying capacity

Standard: 25 – 50 ml /10 l
Strong: 150 – 200 ml/10 l
6 x 1 kg
10 kg

Surtec Multi SF

Cleaning liquid exempt from surfactants for micro-porous surfaces

- cleaning liquid exempt from surfactants for daily maintenance of all surfaces that can be wet-wiped
- specially suited for micro-porous surfaces
- particularly suited for use in food-contact areas since the product is not subject to label warning and is exempt from allergenes

Standard: 25 – 50 ml /10 l
Strong: 150 – 200 ml/10 l
6 x 1 kg
10 kg

Surtec Basic Sour

Basic cleaning liquid for all acid-resistant surfaces

- highly concentrated acid cleaning liquid for periodic basic cleaning of all acid-resistant surfaces that can be wet-wiped
- highly active substances secure quick and thorough cleaning of surfaces
- the product removes lime and urine scale, rust and soap residues.

Standard: 25 – 50 ml /10 l
Strong: 150 – 200 ml/10 l
10 kg

Surtec Basic Alka

Basic cleaning product for all alkali-resistant surfaces

- liquid, highly concentrated, alkaline cleaning product for periodic basic cleaning of all alkali-resistant surfaces that can be wet-wiped
- highly active substances secure quick and thorough surface cleaning
- in particular, grease and oil contamination will be removed without problem

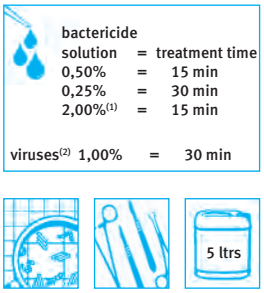
Standard: 25 – 50 ml /10 l
Strong: 150 – 200 ml/10 l
10 kg

Disinfection

Disinfectant cleaning liquid for instruments

Destec Bavicid Med

Disinfectant cleaning liquid for instruments
- disinfectant cleaning liquid exempt from aldehyde for self-cleaning of medical instruments and laboratory devices
- due to its high corrosion inhibition and strong cleaning power, the product is best suited for thermo-stable equipment made from glass, porcelain and metal
- successfully tested and instruments and endescopes
- notified for listing with VAH

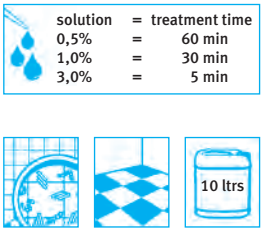


(1) Mycobacterium - limited viricide acc. to RKI recommendation (2) Viruses HBV/HIV/HCV/Vacciniavirus/Mycobacterium

Disinfectant cleaning liquid for surfaces

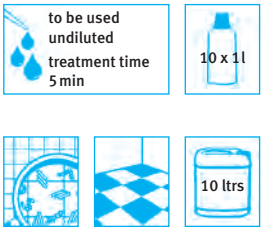
Destec Bavicid Floor

Disinfectant surface-cleaning **liquid exempt from aldehyde**
- concentrated, yielding disinfectant cleaning liquid for all surfaces that can be wet-wiped
- the specific formulation is bactericide, fungicide and virus-deactivating
- the product is particularly suited for use in hospitals, nursing and retirement homes, laundries, surgeries etc.
- notified for listing with VAH



Destec Bavicid Go

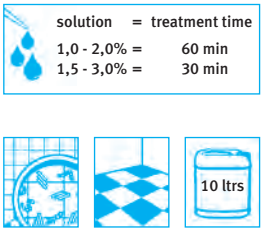
Quick-acting disinfectant **exempt from alcohol for wiping**
- suited for all surfaces that can be wet-wiped, also proved to be appropriate for acrylic glass
- the product permits efficient work due to its brief action time from 1 minute on
- simple handling since the product is ready-for-use and no harmful substance
- notified for listing with VAH



Disinfectant cleaning liquid

Destec Bavicid Food

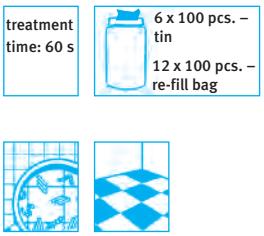
Disinfectant cleaning liquid **for use in kitchens and food industries**
- concentrated disinfectant liquid for use in kitchens, large gastronomy and food-processing industries
- excellent fat-solving power
- notified for listing according to the DVG criteria



Disinfectant cloths

Destec Bavicid Wipe

Disinfectant cloths **exempt from aldehyde**
- wet wipes for quick disinfection of small surfaces resistant to alcohol
- the specific formulation is bactericide, fungicide and virus-deactivating
- particularly suited for use in hospitals, nursing and retirement homes, laundries and surgeries
- notified for listing with VAH



...Effective, Efficient, Ecological!

Destec

Despite thorough cleaning and mainly ideal hygienic conditions, disinfection will be indispensable in many fields and areas of our modern life, and even more in our globalized society.

The decision of whether to disinfect by a chemical process or by physical action will depend on the actual requirements. A distinction is made between hand, skin, surfaces and instrument disinfectants.

Nowadays, a multiplicity of disinfectant components are available – substances which may be harmful to human beings and hazardous to the environments in case of non-professional application.

Due to the specific composition of the SEITZ Disinfectant Products, they offer an ideal symbiosis of effectiveness and environmental protection.

The products of the Destec line are tuned to reach a broad spectrum of effictiveness with low input and short active treatment time. Each product is optimised for application to cope with today's requirements by laundries, hospitals, nursing and retirement homes.

Effectiveness, efficiency and ecology – this is what characterises the **Destec** line.

Disinfectants will protect humans from diseases and optimum product handling and dosage will also protect the environment.

Bathroom

WC- and Sanitary Cleaning Liquids

Ceratec Bowlclean

Acidic toilet-cleaning liquid

- highly concentrated, yielding WC-cleaning liquid
- the optimum combination of surfactants and acids secures quick dissolution of soil deposits and easy rinsing without streaks
- regular use of the product will prevent build-up of lime and urine scale

Ceratec Ready

Acid ready-for-use maintenance cleaning liquid

- liquid, material-caring cleaning liquid for all acid-resistant surfaces
- active protective anti-corrosive components
- quickly drying, best streakless cleaning results

Ceratec Sanitary

Acid liquid for sanitary maintenance cleaning

- liquid, concentrated, yielding cleaning product for sanitary application
- the special product formulation offers streakless cleaning results and a pleasant fresh odour
- regular use will prevent the build-up of lime-scale, also in areas with high water hardness

Hand Care

Soap

Hand Wash

Ready-for-use colourless soap lotion exempt from perfume

- colourless soap lotion exempt from perfume with pearl effect, ready-for-use
- suited for daily use in hospitals, nursing and retirement homes, laundries, surgeries and food-processing industries
- due to iregreasing properties, the product will take care of people's hands despite thorough and hygienic cleaning power

Hand Disinfectant

Destec Bavicid Hand

Alcohol-based hand disinfectant

- the spectrum of effectiveness is bactericide, including tuberculosis, fungicide and virus-deactivating HIV/HBV effectiveness
- active against noro viruses already after 1 minute treatment time
- notified for listing with VAH

Hand Care Cream

Hand Care

Hand care cream

- ready-for-use revitalising cream for work protection
- absorbed quickly also after washing hands
- combined with **Hand Protect**, an ideal skin protection system for highly stressed skin

Hand Protect

Silicon-free protective skin-greasing cream

- ready-for-use, silicon-free protective skin-greasing cream with barrier effect for work protection in handling aqueous solutions
- particularly good protection when using one-way gloves
- suited as ideal complement for the **Hand Care** cream in work protection

OUR PRODUCTS ARE NOT ONLY YIELDING AND ECOLOGICAL, BUT CONSTANTLY THEY ARE BEING FURTHER DEVELOPED AND IMPROVED AND ADAPTED TO THE LATEST STAGE OF TECHNOLOGY. WE GUARANTEE YOU CERTIFIED QUALITY:

- LISTING ACCORDING TO DGMH/VAH
- CONFORMING TO HACCP
- CERTIFIED BY ISO 9000 FF

Service

Benefit from our competence and service – for all fields – from one and the same source!

Within the fields of professional laundry and textile care, we have gained a famous reputation by many decades of partnership due to our standard of customers service, always guided by our constant hope to satisfy our customers with competent and reliable assistance

Products for cleaning, care and disinfection

After several years of research and development, we extended our product assortment by the offer of products for cleaning, caring and disinfecting surfaces. For this purpose, we have employed experts and trained our technical staff to be able to render you the service you are used to from SEITZ.

We are pleased to assist you by presentations, training seminars and consulting at site and iinform you about the most different issues, e.g.: optimum dosage, correct disinfection, effectivity, special cleaning processes, legal requirements, environmental protection and many more.

Our responsibility does not end with the delivery of our products - we are endeavouring to reach a closed system - from manufacture to drain and disposal.

Cleaning of surfaces is a complex business for which we offer you our total service, which you can rely on at any time and without restriction. No matter whether at site or on the phone – we are at your disposal and will guide you to your success!
